About Breast Cancer Care

Every day, over 100 people are diagnosed with breast cancer. This means that within the next quarter of an hour, someone will be told they have the illness.

Breast Cancer Care has been working for over 30 years to make a difference in the lives of people affected by breast cancer.

We provide accurate, easy to understand information as well as practical and emotional support. We are the only breast cancer charity working across the UK to provide these services. Every year we respond to over 2 million requests for support and information about breast cancer or breast health concerns. All our services are free.

By supporting **Strawberry Tea Fortnight** you will be able to help us to make a meaningful difference for people living with breast cancer by ensuring that we can continue to provide free and confidential services to anyone who needs them.

Anyone with breast cancer or breast health concerns can get free, confidential support and information from the **Breast Cancer Care** helpline on 0808 800 6000 or by visiting www.breastcancercare.org.uk

Thank you for your support

All are welcome,

Jean
